# The winners of the 11th Dedalo Minosse Prize

On 21 September 2019, the Teatro Olimpico in Vicenza hosted the Prize Ceremony for the winners of the **11th Dedalo Minosse Prize**: the only accolade in the world to recognize the crucial role of Clients, who provide the driving force that enables Architects to express all of their creativity.

Four main prizes, 12 Special Prizes awarded by Institutions and Partners, and 9 Special Mentions from the Jury have been given to the winning clients, from Israel, Brazil, Italy, the United States, Peru, Belgium, India, Japan, the United Kingdom and Switzerland.

The event was promoted by **ALA Assoarchitetti** in partnership with the Region of Veneto and Vicenza City Council. It selects and presents architectural projects that give concrete form to contemporary research, showcasing the contributions to quality that are brought about by architects and clients working together.

Since the prize was launched, there have been more than 8,000 entries from over 50 different countries. More than 200 events have been organized and the international roadshow has travelled to 50 countries. This year, approximately 300 applications were submitted for the 11th Edition, from more than 40 nations worldwide.

The selection of entries is hugely varied, with everything from small to large-scale schemes. The Jury looked into the reasons behind the development of each project and focused in particular on analysis of social sustainability, public sharing, Design for All, championing and conserving architectural heritage and the landscape, the use of innovative and recyclable materials and technologies in order to conserve the built and natural environments, promoting local languages and traditions, multidisciplinary approaches to design, and integration between art, architecture and design.

The International Jury at the 11th edition was made up of highly distinguished figures with hugely varied expertise and experience. Among them are David Basulto (the
